CORPORATE GOVERNANCE POLICY AND FRAMEWORK

POLICY

Responsible corporate governance is a constant and priority commitment of ACEN CORPORATION (hereafter, **we, our, ACEN or Corporation**). We believe that adherence to good corporate governance principles is essential for the achievement of our strategic goals. At ACEN, we believe in doing business with integrity and in full compliance with all laws and regulations. At the core of the Corporation are four corporate values: integrity, long-term vision, empowering leadership, and commitment to national development.

FRAMEWORK

Corporate Governance is the system of stewardship and control to guide organizations in fulfilling their long-term economic, moral, legal and social obligations towards their stakeholders. Corporate governance is a system of direction, feedback and control using regulations, performance standards and ethical guidelines to hold the Board and senior management accountable for ensuring ethical behavior – reconciling long-term customer satisfaction with shareholder value – to the benefit of all stakeholders and society. Its purpose is to maximize the organization’s long-term success, creating sustainable value for its shareholders, stakeholders and the nation.¹

Through the years, we have developed mechanisms to ensure that our corporate governance conforms to regulatory requirements and best practices, and that we pursue our goals ethically and honestly. Those mechanisms are set forth in this Corporate Governance Manual (adopted July 23, 2019), our Code of Conduct and Ethics, Whistleblower Policy, Policy on Related Party Transactions and Enterprise Risk Management Policy (hereafter, the **Governance Codes and Policies**), our Articles of Incorporation (the **Articles**) and By-Laws (the **By-laws**), and the Charters of our Board of Directors (the **Board**) and its Committees (the **Charters**).

Copies of the current version of this Corporate Governance Manual, the Governance Codes and Policies, the Articles, the By-laws and the Charters are posted in our website. In compliance with the Code of Corporate Governance for Publicly Listed Companies (the **CG Code for PLCs**), particularly the guidelines on the contents of a corporation’s manual on corporate governance, the Governance Codes and Policies, the Articles, the By-laws and the Charters are incorporated in this Corporate Governance Manual.

Part One: Governance Structure

I. Board of Directors

The Board of Directors is the supreme authority in matters of governance and in overseeing the business of the Corporation. It is the governing body elected by the stockholders that exercises the corporate powers of a corporation, conducts all its business and controls its properties.² It has the power of control, supervision and oversight over Management. In keeping with its mandate to foster the sustained success and competitiveness of the Corporation amidst the evolving global environment in a manner consistent with its fiduciary responsibility, the Board takes the helm in promoting the best practices of corporate governance.
