The Board plays an integral role in ACEN's climate agenda, including the increasing integration of climate-related issues into our broader corporate strategy. In particular, the Board reviews and approves major strategic decisions proposed by senior management around energy transition, decarbonization strategy, portfolio of top risks including climate, and medium and long-term climate targets. Further, the Board reviews and approves management's specific responsibilities against ESG targets, including the development of science-based metrics and targets towards ACEN's Net Zero goal by 2050.

In recent years, key strategic decisions of the Board have had an increased focus on climate change.

2.1

ACEN adopts a policy specifying the relationship between remuneration and performance.

Ref: pg 1 > ACEN Charter of the Personnel and Compensation Committee> Section 2.6

The performance management system drives the compensation and incentive plans of senior executives, and is meant to align employees' individual goals with the Company's goals and strategies.

The Board approves, on an annual basis, the Company's corporate key results areas (KRAs), which include financial, operations, development and ESG metrics. These metrics are meticulously crafted and reviewed by management as a means to promote the long-term interests of the Company.

Furthermore, the Board approves, on an annual basis, the Company's KRA performance for the previous year. The Board-approved corporate KRA rating is then considered in determining the performance-based remuneration of the Company's executive directors and senior executives.

Management compensation is typically broken down into three components: (1) Base compensation; (2) Variable

compensation based on annual targets or key result areas (KRAs); and (3) a long-term incentive plan, which is typically vested over a three-year period and is linked to long-term objectives.

The performance of the Company's senior executives, including the CEO, are rated based on their respective KRAs. These KRAs cover various aspects of the business, covering a wide array of performance areas, including Financial, Operations, Development and Pipeline, Organization and Risk Management and ESG.

ACEN's Employee Stock Ownership (ESOWN) program serves as a long-term incentive program for qualified executives and managerial employees. This long-term incentive plan is meant to enhance ownership and accountability, and align management compensation with company objectives.

The award range is a percentage of the grantee's annual gross compensation. Potential awards are based on employee performance, company performance and share price.

Ref: pg 84 to 85 > ACEN 2023 Integrated Report > Performance assessment and compensation

The salary increments, benefits and rewards are commensurate to the overall

		<p>Company and individual performance, determined through the mid-year and annual performance and talent review process.</p> <p><i>Ref: pg 42 > ACEN 2023 Integrated Report > Compensation and benefits</i></p> <p>Included in the compensation elements of the Company is long-term incentive compensation. The Company has instituted a performance-based incentive program delivered as either performance shares, stock ownership (ESOWN) plans or long-term cash incentives. Senior executives (i.e., those with a rank of Assistant Vice President and up) are considered for award eligibility in a given grant.</p>	
Recommendation 2.6			
1. Board has a formal and transparent board nomination and election policy. Management compensation is typically broken down into three components: (1) Base compensation; (2) Variable compensation based on annual targets or key result areas (KRAs); and (3) a long-term incentive plan, which is typically vested over a three-year period and is linked to long-term objectives.

The performance of the Company's senior executives, including the CEO, are rated based on their respective KRAs. These KRAs cover various aspects of the business, covering a wide array of performance areas, including Financial, Operations, Development and Pipeline, Organization and Risk Management and ESG.

The Board approves, on an annual basis, the Company's corporate key results areas (KRAs), which include financial, operations, development and ESG metrics. These metrics are meticulously crafted and reviewed by management as a means to promote the long-term interests of the Company.

ANNEX A
2023 Attestation of Internal Audit, Control and Compliance Systems

2023 Attestation of Internal Audit, Control and Compliance Systems

ACEN CORPORATION's corporate governance system takes into consideration the organizational structure as a whole; led by an effective board and board committees; supported by empowered and accountable management and management committees; and guided by strong core values across all levels with sound policies and effective controls.

- The Board of Directors is responsible in providing governance and overseeing the implementation of adequate internal control mechanisms and risk management process;
- Management is primarily responsible in designing and implementing adequate and effective system of internal controls and risk management processes to ensure compliance with laws, rules, and regulations;
- Management is also responsible in developing a system to monitor and manage risks;
- SGV & Co., the Corporation's external auditor, is responsible for assessing and expressing an opinion on the conformity of the audited financial statements with Philippine Financial Reporting Standards and the overall quality of the financial reporting process;
- Internal Audit adopts a risk-based audit approach in developing an annual work plan and conducts reviews to assess the adequacy of the Corporation's internal controls;
- The Chief Audit Executive reports functionally to the Audit Committee to ensure independence and objectivity allowing Internal Audit to fulfill its responsibilities; and
- Internal audit activities conform with the International Standards for Professional Practice of Internal Auditing and will be continuously evaluated through an independent Quality Assessment Review conducted every five years.

Based on the above and through reliance on the reports provided by the Corporation's internal auditors and its external auditors for the year 2023, we attest that ACEN CORPORATION's system of internal controls, risk management, compliance, and governance processes are designed adequately and continue to operate effectively.
