conduct of Ancillary Services Competitive Selection Process (AS-CSP); in relation to the Ancillary Services – Cost Recovery Mechanism (AS-CRM) promulgated by the Energy Regulatory Commission in its Decision dated 3 October 2007 in ERC Case No. 2006-049RC.

THE PARTIES

2. Applicant NGCP is a corporation created and existing under the laws of the Philippines, with office address at NGCP Building, Quezon Avenue corner BIR Road, Diliman, Quezon City. It holds a congressional franchise granted under Republic Act No. 9511,² and is authorized to engage in the business of conveying or transmitting electricity through high-voltage back-bone systems of interconnected transmission lines, substations and related facilities, and for other purposes. The NGCP is authorized to conduct activities necessary to support the safe and reliable operation of the transmission system.
3. Applicant GA4 is a corporation duly organized and existing under and by virtue of the laws of the Republic of the Philippines, with principal place of business at 35th Floor, Ayala Triangle Gardens Tower 2, Paseo de Roxas corner Makati Avenue, Makati City.
 - 3.1. GA4 is the owner and operator of a Battery Energy Storage System with a rated capacity of 30.024 MW continuous output at 60Hz, including required ancillaries and spare parts, located at Brgy. San Andres, Alaminos, Laguna (the “Generation Facility”), which was certified and accredited by the NGCP as capable of providing Regulating Reserve Service and Contingency Reserve Service.
4. NGCP and GA4 may be served with orders, notices, pleadings and other legal processes through their respective counsels at the addresses indicated below.

ANTECEDENT FACTS

5. Republic Act No. 9136, also known as the Electric Power Industry Reform Act (“EPIRA”), provides that it is the responsibility of NGCP to ensure and maintain the reliability, adequacy, security, stability and integrity of the nationwide electrical grid in accordance with the performance standards for its operations and maintenance, as set forth in the Philippine Grid Code (“PGC”),³ adopted and promulgated by the Honorable Commission, and to adequately serve generation companies, distribution utilities and suppliers

² An Act Granting the National Grid Corporation of the Philippines a Franchise To Engage in the Business of Conveying or Transmitting Electricity Through High Voltage Back-Bone System of Interconnected Transmission Lines, Substations and Related Facilities, and for other Purposes.

- requiring transmission service and/or ancillary services (“AS” or “Ancillary Services”)⁴ through the transmission system.⁵
6. Similarly, the PGC provides that NGCP is responsible for determining, acquiring, and dispatching the capacity needed to supply the required Grid AS and for developing and proposing Wheeling Charges and AS tariffs of the ERC.⁶
 7. Ancillary Services is defined in Section 4 (b) of the EPIRA as referring “*to those services that are necessary to support the transmission of capacity and energy from resources to loads while maintaining reliable operation of the transmission system in accordance with good utility practice and the Grid Code to be adopted in accordance with this Act.*” These services are essential in ensuring reliability in the operation of the transmission system and consequently, in the reliability of the electricity supply in the Luzon, Visayas and Mindanao grids.
 8. In order to implement and regulate the procurement of AS, the Honorable Commission approved the Ancillary Services Procurement Plan (“ASPP”) through its Order dated 9 March 2006 in ERC Case No. 2002-253 and the Ancillary Services-Cost Recovery Mechanism (“AS-CRM”) through its Decision dated 3 October 2007 in ERC Case No. 2006-049RC.
 9. The NGCP certified that the units of the Generation Facility have met and complied with the Standard Ancillary Services Technical Requirements of the ASPP as capable of providing Contingency Reserves. A copy of NGCP Accreditation Certificate No. AS 2022-Lo22 in favor of GA4 and valid from 31 March 2023 to 30 March 2025 is attached to this Application.⁷

Competitive Selection Process

10. On 04 October 2021, the DOE issued the AS-CSP Circular providing the policy for the conduct of the Competitive Selection Process (CSP) for the procurement of Ancillary Services by the System Operator (NGCP). Among the policies set by the AS-CSP Circular was the creation of an independent Third Party Bids and Awards Committee (TPBAC) to spearhead and manage the CSP.

⁴ Section 4(b), EPIRA. “Ancillary Services” refer to those services that are necessary to support the transmission of capacity and energy from resources to loads while maintaining reliable operation of the transmission system in accordance with good utility practice and the Grid code to be adopted in accordance with this Act.

²⁰ Simulated Average AS Cost Rate.

Note that the capacities in the hourly profile are the maximum ancillary service capacities that can be provided by each unit. However, declaration and schedule shall be based on the latest AS Accreditation Certificate, which shall not exceed the Firm capacities in the hourly profile.

21. Schedule 3 of the ASPA provides for the formula for the computation of the Ancillary Service Payment, and the applicable rates for Capacity Payment:

A. Ancillary Service Payment

1. For RR & CR, Ancillary Service Payment is the total of the Capacity Payment and the Incidental Energy Payment in B and C below.

Ancillary Service Payment_{RR, CR} = Capacity Payment + Incidental Energy Payment

B. Applicable Rates for Capacity Payment:

1. Regulating Reserve: PhP 0.9581/kW/h
2. Contingency Reserve: PhP 5.2841/kW/h

Formula for Capacity Payment = Undispatched Scheduled Capacity x Applicable Rate per AS type

C. Incidental Energy Payment

The Cost of Incidental Energy (“IE”) is the cost of actual energy generated for the Firm Scheduled Capacity which shall be paid and computed using the formula below:

Payment of Cost of Incidental Energy (IE) computed as follows:

$$\begin{aligned} \text{Incidental Energy Payment} &= \{G \times (\text{Capacity Payment Rate} + \text{Energy Fees})\} \\ &\quad - (\text{WESM Revenue} - \text{WESM Payment}) \end{aligned}$$

Where:

- G = for BESS RR, sum of the absolute value of the actual energy dispatched and absolute value of the actual energy absorbed due to frequency regulation; or for BESS CR, is the actual energy dispatched only, in kWh
- Energy Fees, in PhP/kWh = Fuel Cost + Fixed and Variable O&M Cost, in PhP/kWh
- Fuel Cost, in PhP/kWh = fuel cost based on prevailing price with relevant fuel index based on published data
- Variable O&M Cost, in PhP/kWh = VOM rate(depending on AS type enumerated below) x

(Current CPI ÷ Base CPI); where Base CPI is CPI of December 2022.

- VOM rate_{RR}: PhP 0.0400 /kWh
- VOM rate_{CR}: PhP 4.1230/kWh
- WESM Revenue = summation of WESM revenue based on market clearing price at the generator's trading node, arising from G.
- WESM Payment = summation of WESM purchases based on market clearing price at the generator's trading node, for generator's feedback power if applicable.

D. Submission of Documents for Computation of Fuel Costs

AS Provider shall submit the necessary documents detailing the actual fuel costs (e.g., invoice or official receipts, relevant fuel indices) along with the bill.

Failure to submit the necessary documents within the next billing period after the relevant billing period will forfeit the payment to AS Provider for IE. NGCP shall only pay for the Applicable Rate for the undispached scheduled capacities and shall not be obligated to pay for the IE.

NGCP shall provide due notice to AS Provider for any additional documents that may be required in relation to the computation of Fuel Cost.

E. The cost of Replacement AS Capacity shall be shouldered by the AS Provider.

NGCP shall pay the corresponding Capacity Payment and Incidental Energy Payment based on A to C of this Schedule 3, or the actual cost of Replacement AS Capacity, whichever is lower.

F. Resulting accumulated amount due to excess WESM Revenue shall be returned/reimbursed by AS Provider to NGCP upon expiration of this ASPA.

22. In compliance with the Honorable Commission's document checklist, NGCP submits the following:

Document	Annex
AS Rates Offered by the AS Provider during the AS-CSP	"L"

23. AS Provider submits that the rates represent a reasonable recovery of its opportunity cost in making available generation capacity to provide the procured AS.

	P/kW – month	P/kwh
RR	1.5219	0.0029959
CR	4.5221	0.0089

A copy of the Rate Impact Simulation for GA4 is attached to this Application.²¹

24. Consistent with the AS-CRM, all the related and incidental expenses which NGCP will incur as a result of the procurement and operation of the ancillary services shall be recovered from all the load customers in the Luzon Grid.
25. As provided under Section 2.1 of the ASPA, the same shall become effective upon the approval by the ERC, either through a Provisional Authority (PA), or Interim Relief (IR), or final Decision, whichever comes first, unless if a different effective date is provided by the ERC in its Order or Decision, and shall remain effective for a period of five (5) years, subject to Section 13 (Termination) of the ASPA.
26. GA4, as a generation company, falls within the ambit of Section 6 of the EPIRA. Attached are copies of relevant documents proving GA4's due registration as a generation company, relevant permits to operate the Generation Facility and audited financial statements, as well as other documents required by the Honorable Commission:

27. While GA4 is a co-applicant, it manifests that the instant Application shall neither modify, diminish nor constitute a waiver of its rights nor expand its obligations and responsibilities as a generation company under the EPIRA.

**ALLEGATIONS IN SUPPORT OF THE PRAYER FOR
CONFIDENTIAL TREATMENT OF INFORMATION**

28. Under Rule 4 of the ERC Rules of Practice and Procedure, the Honorable Commission may, upon request of a party and determination of existence of conditions that would warrant such remedy, treat certain information submitted to it as confidential.
29. Documents attached to this Application, particularly Annexes Y and Z contain commercially valuable and sensitive information and data that reflect GA4’s investments, business operations, calculations, and other trade secrets.
30. GA4 thus respectfully moves that these documents are not disclosed and treated as confidential documents in accordance with Section 1, Rule 4 of the Honorable Commission’s Rules of Practice and Procedure. Accordingly, GA4 submits one (1) copy of said documents in a sealed envelope, with the envelope and each page of the document stamped with the word “Confidential”.

**ALLEGATIONS IN SUPPORT OF THE PRAYER FOR
PROVISIONAL AUTHORITY**

31. It is a declared policy of the State to ensure the quality, reliability, security and affordability of the supply of electric power.²² To this end, there is a need to comply with the system requirements for AS to ensure grid system security and reliability. As mentioned above, NGCP has the mandate to procure the required AS. However, the Honorable Commission must first approve the contract before the same can be implemented.
32. As the demand for power in Luzon increases, the requirements of the system likewise increases. Ensuring the integrity of the system is essential to protect the interests of the public. The absence of system reliability and stability will certainly discourage investments and growth.
33. Applicants respectfully submit that the immediate approval of the ASPA by this Honorable Commission is a necessity to

²² Section 2(b), EPIRA.

maintain the present reliability and security of the Grid. In support of these allegations. NGCP submits a copy of the Judicial Affidavit of Ms. Lisaflor B. Kater,²³ which is attached to this Application.

PRAYER

WHEREFORE, premises considered, Applicants respectfully pray that the Honorable Commission:

1. Immediately ISSUE a provisional authority to implement the subject ASPA executed on 02 May 2023; and
2. APPROVE, after notice and hearing, the subject ASPA.
3. ISSUE an Order treating Annexes Y and Z as confidential information pursuant to Section 1, Rule 4 of the ERC Rules of Practice and Procedure and prescribing the guidelines for the protection thereof.

Other just and equitable reliefs are likewise prayed for.

Finding the said *Application* to be sufficient in form and with the required fees having been paid, the Commission hereby sets the same for determination of compliance with the jurisdictional requirements, expository presentation, Pre-Trial Conference and presentation of evidence on the following dates and online platform for the conduct thereof, pursuant to Resolution No. 09, Series of 2020²⁴ and Resolution No. 01, Series of 2021²⁵ (ERC Revised Rules of Practice and Procedure):
