NOTICE OF VIRTUAL HEARING

TO ALL INTERESTED PARTIES:

Notice is hereby given that on 26 May 2023, National Grid Corporation of the Philippines (NGCP) and Ingrid Power Holdings, Inc. (IPHI) filed an *Application* dated 11 May 2023, seeking the Commission's approval of their Ancillary Services Procurement Agreement (ASPA), with prayer for the issuance of provisional authority.

The pertinent allegations of the *Application* are hereunder quoted as follows:

NATURE OF THE CASE

1. This Application is for the approval of the Ancillary Services Procurement Agreement ("ASPA" or "Agreement") dated 02

May 2023,¹ entered into by the NGCP and IPHI, pursuant to Department of Energy (DOE) Department Circular No. DC 2021-10-0031 (the "AS-CSP Circular") prescribing the conduct of Ancillary Services Competitive Selection Process (AS-CSP); in relation to the Ancillary Services – Cost Recovery Mechanism (AS-CRM) promulgated by the Energy Regulatory Commission in its Decision dated 3 October 2007 in ERC Case No. 2006-049RC.

THE PARTIES

2. Applicant NGCP is a corporation created and existing under the laws of the Philippines, with office address at NGCP Building, Quezon Avenue corner BIR Road, Diliman, Quezon City. It holds a congressional franchise granted under Republic Act No. 9511,² and is authorized to engage in the business of conveying or transmitting electricity through high-voltage back-bone systems of interconnected transmission lines, substations and related facilities, and for other purposes. The NGCP is authorized to conduct activities necessary to support the safe and reliable operation of the transmission system.
3. Applicant IPHI is a corporation duly organized and existing under and by virtue of the laws of the Republic of the Philippines, with principal place of business at 4th Floor, 6750 Office Building, Ayala Avenue, San Lorenzo, Makati City.
 - 3.1. IPHI is the owner and operator of a power plant composed of one hundred sixty-two (162) Modular Diesel Engine Generating Units, with a rated capacity of 179.824 MW continuous output at 60Hz, including required ancillaries and spare parts, located at National Road, Brgy. Malaya, Pililla, Rizal (the "Generation Facility"), which was certified and accredited by the NGCP as capable of providing Regulating Reserve Service and Contingency Reserve Service.
4. NGCP and IPHI may be served with orders, notices, pleadings and other legal processes through their respective counsels at the addresses indicated below.

ANTECEDENT FACTS

5. Republic Act No. 9136, also known as the Electric Power Industry Reform Act ("EPIRA"), provides that it is the responsibility of NGCP to ensure and maintain the reliability, adequacy, security, stability and integrity of the nationwide electrical grid in accordance with the performance standards

¹ A copy of the Ancillary Services Procurement Agreement (ASPA) dated 02 May 2023 is attached as Annex "A" of the *Application*.

for its operations and maintenance, as set forth in the Philippine Grid Code (“PGC”),³ adopted and promulgated by the Honorable Commission, and to adequately serve generation companies, distribution utilities and suppliers requiring transmission service and/or ancillary services (“AS” or “Ancillary Services”)⁴ through the transmission system.⁵

6. Similarly, the PGC provides that NGCP is responsible for determining, acquiring, and dispatching the capacity needed to supply the required Grid AS and for developing and proposing Wheeling Charges and AS tariffs of the ERC.⁶
7. Ancillary Services is defined in Section 4 (b) of the EPIRA as referring “*to those services that are necessary to support the transmission of capacity and energy from resources to loads while maintaining reliable operation of the transmission system in accordance with good utility practice and the Grid Code to be adopted in accordance with this Act.*” These services are essential in ensuring reliability in the operation of the transmission system and consequently, in the reliability of the electricity supply in the Luzon, Visayas and Mindanao grids.
8. In order to implement and regulate the procurement of AS, the Honorable Commission approved the Ancillary Services Procurement Plan (“ASPP”) through its Order dated 9 March 2006 in ERC Case No. 2002-253 and the Ancillary Services-Cost Recovery Mechanism (“AS-CRM”) through its Decision dated 3 October 2007 in ERC Case No. 2006-049RC.
9. The NGCP certified that the units of the Generation Facility have met and complied with the Standard Ancillary Services Technical Requirements of the ASPP as capable of providing Contingency Reserves. A copy of NGCP Accreditation Certificate No. AS2022-LO05 in favor of IPHI and valid from 30 March 2022 to 29 March 2024 is attached to this Application.⁷

Competitive Selection Process

10. On 04 October 2021, the DOE issued the AS-CSP Circular providing the policy for the conduct of the Competitive Selection Process (CSP) for the procurement of Ancillary Services by the System Operator (NGCP). Among the policies set by the AS-CSP Circular was the creation of an independent

Note that the capacities in the hourly profile are the maximum ancillary service capacities that can be provided by each unit. However, declaration and schedule shall be based on the latest AS Accreditation Certificate, which shall not exceed the Firm capacities in the hourly profile.

21. Schedule 3 of the ASPA provides for the formula for the computation of the Ancillary Service Payment, and the applicable rates for Capacity Payment:

A. Ancillary Service Payment

1. For CR, Ancillary Service Payment is the total of the Capacity Payment and the Incidental Energy Payment in B and C below.

Ancillary Service Payment_{CR} = Capacity Payment +
Incidental Energy Payment

B. Applicable Rates for Capacity Payment:

Contingency Reserve:

- a. 03INGRID_GS1: PhP 4.4056/kW/h
- b. 03INGRID_GS2: PhP 4.4059/kW/h
- c. 03INGRID_GS4: PhP 4.4057/kW/h
- d. 03INGRID_GS6: PhP 4.4058/kW/h

Formula for Capacity Payment = Undispatched Scheduled
Capacity x Applicable Rate per AS type

C. Incidental Energy Payment

The Cost of Incidental Energy (“IE”) is the cost of actual energy generated for the Firm Scheduled Capacity which shall be paid and computed using the formula below:

Payment of Cost of Incidental Energy (IE) computed as follows:

$$\begin{aligned} \text{Incidental Energy Payment} \\ &= \{G \times (\text{Capacity Payment Rate} + \text{Energy Fees})\} \\ &\quad - (\text{WESM Revenue} - \text{WESM Payment}) \end{aligned}$$

Where:

- G = summation of actual energy generated or dispatched from the Scheduled Capacity, in kWh
- Energy Fees, in PhP/kWh = Fuel Cost + Fixed and Variable O&M Cost, in PhP/kWh
- Fuel Cost, in PhP/kWh = based on the Fuel Cost Formula below.
- Variable O&M Cost, in PhP/kWh = 2.9800 PhP/kWh x (Current CPI ÷ Base CPI); where Base CPI is CPI of December 2022.
- WESM Revenue = summation of WESM revenue based on market clearing price at the generator's trading node, arising from G.
- WESM Payment = summation of WESM purchases based on market clearing price at the generator's

trading node, for generator's feedback power if applicable.

- Fuel Cost Formula:

$$FC_n = FR_n \times \text{Fuel Price}_n$$

where:

FC_n = Fuel Cost in Philippine Peso per kilowatt hour (PhP/kWh) for billing month n

FR_n = Fuel Rate in liters per kilowatt hour for billing month n .

$$\text{Fuel Price}_n = \left\{ (\text{MOPS} + \text{PREMIUM}) \times \text{FX} \right\} + \text{CME} + \text{DC} + \text{RS} + \text{GPC} + \text{FMF}$$

where:

Fuel Price_n = Fuel cost composed of all variables attributable to the fuel supply listed by the Ancillary Service provider converted to PhP/L for billing month n .

MOPS = Mean on Platts Singapore shall refer to the previous month's average spot price published in Platts Oilgram Price Report for Fuel Oil 180cst Index and is variable monthly. Quoted in US\$/bbl, the conversion shall be fixed at 158.9840 L/bbl and is variable monthly.

Premium = Fixed Base Premium of 5.5 US\$/bbl. This is subject to an annual price adjustment. The conversion factor shall be fixed at 158.9840 L/bbl

FX = Foreign Exchange rate in PhP/US\$ based on the previous month's average for the billing period with reference to the Philippine Dealing System (PDS). This component is variable monthly.

CME = Coco Methyl Ester is based on the United Coconut Association of the Philippines (UCAP) average of the previous month, as mandated by the Philippine government for all Diesel fuels (at least 2% biodiesel component as of 06 February 2009 with an additional discount of 13.5 PhP/L. This component is variable

DC = Delivery Charge is 0.7617 PhP/L and is variable annually. Please refer Delivery Charge Table below. The Ancillary Service provider shall ensure prudence in negotiating the terms of the contract with the fuel supplier.

Delivery Charge Table

Year	Adjusted Rate (PhP/L)
2023	0.7617
2024	0.7817
2025	0.8017
2026	Will depend on the negotiated terms of the supply contract with the fuel provider.
2027	

RS = Refueling Services computed as Monthly Volume Commitment (MVC) equal to 7,333,333 liters multiplied by the Finance Fee equal to 0.4020 PhP/L.

GPC = Any Government Passthrough Charges (GPC) applicable such as but not limited to excise tax, VAT, etc. shall be a complete passthrough charge to the Ancillary Service buyer.

FMF = Fuel Marking Fee shall be a complete passthrough to the Ancillary Service buyer as mandated and implemented by the Philippine government.

D. Submission of Documents for Computation of Fuel Costs

AS Provider shall submit the necessary documents detailing the actual fuel costs (e.g., invoice or official receipts, relevant fuel indices) along with the bill.

Failure to submit the necessary documents within the next billing period after the relevant billing period will forfeit the payment to AS Provider for IE. NGCP shall only pay for the Applicable Rate for the undispached scheduled capacities and shall not be obligated to pay for the IE.

NGCP shall provide due notice to AS Provider for any additional documents that may be required in relation to the computation of Fuel Cost.

E. The cost of Replacement AS Capacity shall be shouldered by the AS Provider.

NGCP shall pay the corresponding Capacity Payment and Incidental Energy Payment based on A to C of this Schedule 3, or the actual cost of Replacement AS Capacity, whichever is lower.

F. Resulting accumulated amount due to excess WESM Revenue shall be returned/reimbursed by AS Provider to NGCP upon expiration of this ASPA.

22. In compliance with the Honorable Commission’s document checklist, NGCP submits the following:
